The Custom House Investigation.

NEW YORK, Jan. 16.—In the Custom House investigation to-day, H. B. Claflin, the eminent dry-goods merchant, testified that he had no fault to find with the Government, except in a clear case of legal right and over ruling necessity.

Deputy Controller Clark explained the means of investigating frauds in the cartage business and the difficulty of obtaining a clew to the culprits. He also explained why, in some cases, merchants were compromised for a less sum than those originally fixed.

B. N. Madgett testified that he had frequently heard during his ten years' service, of officers receiving gratuities. He had requested Grinnell to resist the disgraceful system of permitting adventurers from Washington to get all the plums. Louis Dent, brother-in-law of the President, waited on Grinnell to induce him to give the general order and cartage business to a certain party. That party consisted of Gen. Porter, Leet, Lindsay and others. Afterwards General Porter came on to Grinnell, who gave orders to send goods to Bixby's store, the latter having arranged with Porter & Co. Bixby told the witness that he paid Leet $5,000 a year. Leet was then on Grant's staff. He remained a year in Washington after this arrangement was at an end. At that time, Leet & Co. got the general order business. Subsequently, Gen. Porter told the witness in Washington that neither himself, Babcock or Leet had anything to do with anything in the New York Custom House. Witness said Leet & Co. must be making $150,000 to $200,000 a year clear profit out of the general order business. Witness testified to the payment of assessments for political purposes by the Custom House employees. A number of witnesses, including several discharged employees of the Custom House, testified to fraudulent primary elections in 1871, by the Murphy faction, and to the fact that certain employees were rewarded by promotion for signing fraudulent returns of those primaries. Also to the removal of employees who would not aid Murphy politically.

The Louisiana Imbroglio.

WASHINGTON Jan. 15.—The President received a telegram from Gov. Warmouth last night transmitting the resolution of the Legislature of Louisiana requesting the President to place the military forces in the vicinity of New Orleans at the disposal of the Governor. He therefore asked that the request be complied with. The President referred the telegram, with instructions, to Attorney General Williams, who forwarded a reply saying: There is a contest as to the legality of the election of Lieutenant Governor, and a division in the lower branch of the Legislature. A dispatch has been received here from two persons each claiming to be Speaker thereof, and the President does not feel that he would be justified in deciding those questions at this time and under existing circumstances. He is unwilling to interfere in State matters with the military power of the Government except in a clear case of legal right and overruling necessity.

NEW ORLEANS, Jan. 16.—The President's refusal to interfere in the troubles gives general satisfaction.

No quorum in the Senate to-day. The House was disorderly.

In view of the repeal of obnoxious laws by the Legislature yesterday, it is hoped harmony will be restored.

Amendment to Jury Law in New York.

ALBANY, N. Y., Jan. 15.—A bill was introduced in the Assembly to-night providing that a previous formation or expression of opinion in reference to the guilt or innocence does not disqualify from jury service, providing the person swears to render an impartial verdict under the evidence. It is not to take effect for six months after its passage so as not to apply to the Stokes case.

CONDENSED TELEGRAMS.

In the California Legislature a resolution has been presented for the ratification of the 14th and 15th Amendments.

A petition has been presented to Congress against the employment of Government officers who drink intoxicating liquors.

The Committee on Agriculture in the House at Washington has been directed to inquire into the disposition of agricultural college scrip.

A committee, consisting of Messrs. Schofield, McCreary, Voorhees, Smith of New York, and Marshall has been appointed by Congress to investigate the Louisiana imbroglio.

Congress has passed a bill appropriating fifty thousand dollars for a boundary survey between the United States and British America from the Lake of the Woods west to the Rocky Mountains.

The House has passed an amnesty bill, 170 to 30. It excepts only those members of Congress and officers of the army and navy and other officials who left the service of the Government to participate in the rebellion.

The Senate Committee on Foreign Relations has reported a resolution asking the President to give the Senate any information in his possession relative to the seizure by the revolutionary Government of Venezuela of an American steam transportation company's vessel, and the virtual imprisonment of certain American citizens.

Notwithstanding the efforts of the French authorities to prevent the assassination of Germans in occupied Provinces, these outrages still continue. Another case is just reported, the victim being a Prussian soldier belonging to the garrison at Luneville, in the Department of Meurth. The German military commander has demanded the surrender of the assassin. The French authorities are searching for him.

Location of the Oregon & California Railroad.

We take the following from an article in the Roseburg *Plaindealer*:

We are informed that on the 23d of last month a plat of the survey and definite location of the entire line of the Oregon & California railroad through Southern Oregon, from the South Umpqua river to the California boundary was filed in the Executive office at Salem. This line crosses the South Umpqua about two miles north of the month of Cow creek, thence running southerly up Cow creek and through the Umpqua mountains with said creek, making a circuit of near forty miles to gain what might be reached by going through the big canyon, a distance of twelve miles. The line then leads entirely up Cow creek to a point near the head of Evans creek, thence striking over to Evans creek, leading down through the meadows and up Rogue river on the north side, crossing Rogue river about seven miles above the mouth of Little Butte creek. From this point the line passes over to Little Butte creek and up its north fork, thence in a south-easterly direction through the Cascade mountains in the Butte creek and Buck Lake pass. The line lies immediately north of Buck Lake along its shores, and to the south of Aspen Lake and Round Lake. Thence the survey continues to the southeast, crossing the upper arm of Lower Klamath Lake, short of three miles below the mouth of Link river. Thence still southeasterly to the north shore of Rhett Lake, reaching the State boundary on the northeast shore line of said lake. A duplicate of this plat has been forwarded to Washington to be filed with the Secretary of the Interior, on which the lands granted to this railroad will be withdrawn from the market in favor of the Oregon & California Railroad Company.

A Richmond letter states that the Pennsylvania Central is about to come into the immediate possession of the Richmond, Fredericksburg and Potomac railroad, which in connection with the Alexandria and Fredericksburg road, will give them an air line from Washington to Richmond, and complete their system into the heart of the cotton States, for which they so successfully labored last winter. Is there never to be an end of the conquests of the monster monopoly?

SHORT PARAGRAPHS.

The *Want*, a new penny paper, has appeared in Pittsburg. Just imagine the condition of the wretched Pittsburgers, with *Want* staring them in the face every day.

A statement has been made, but is denied by the *Jewish Messenger*, that a meeting has been held at Frankfort, Germany, and large sums raised among the Jews to purchase Jerusalem from the Sultan.

With unexampled enterprise the New York *Herald* has sent an expedition in search of Dr. Livingstone. So great an undertaking was never before attempted by a newspaper. The expedition is fitted out entirely at the expense of the *Herald*.

At Darmstadt recently, while carelessly handling a loaded revolver, the King of Denmark lost three fingers of his right hand by the accidental discharge of the weapon. The good King has become pretty well used to the smell of powder by this time, as he has been twice shot at in the course of his not very eventful career.

The recommendations of Presidents Buchanan and Lincoln that the surplus of the Chinese indemnity fund be appropriated to establish an American college in China for the training of suitable interpreters for our diplomatic and consular service, and to facilitate commercial intercourse with that great empire, has been recalled to the attention of Congress, and action will probably be taken.

The Atlantic cables are said to have earned about $3,350,000 in the past year, at a cost of not over $350,000 for expenses, having a surplus of 15 per cent. upon the stock. In this connection a curious circumstance is mentioned. When Marshall O. Roberts subscribed $10,000 to the stock of the original cable enterprise, to help it along, he sold nine lots on Fifth avenue for $9,000, in order to get the money. His cable stock has been over sunk but it is now worth about the original par, while the lots on Fifth avenue are worth $50,000 each, or $450,000.

Gen. Grant's message shows that while others have talked he has acted. To Congress he says in effect: "You have been talking about the evils of the present civil service system, which you are compelled to admit I have inherited, not created; I am about to endeavor to reform it. If you will help me, I shall be glad of your assistance, but whether you help me or not I shall attempt the task." By his action in this matter he has won an additional title to the confidence of the people, and has made himself the inaugurator of civil service reform.

Several defalcations of Government officials are the direct result of gambling in stocks. This circumstance has suggested the propriety of some legislation on the subject, and Mr. Edmunds has recently introduced a bill in the Senate which prohibits all persons employed in the Treasury Department, or in the collection or disbursement of the revenue as a disbursing officer, clerk or agent, in any department of the public service, from being engaged or concerned in the buying and selling of coin, Government securities or stock of any description, under penalty of a fine not exceeding $10,000, or imprisonment not exceeding ten years, or both in the discretion of the court. Persons who aid or assist Government employes in such speculations are made liable to half the above mentioned penalties; and informers, leading to conviction of offenders under the foregoing provisions, are to receive $500 each.

B. F. Dowell, J. H. Mitchell and other Oregonians were of the party who were delayed about two weeks in the snow drifts on the Union Pacific railroad.

One night last week Adam Smith, who owns a mine near Jacksonville, discovered a Chinese robbing his sluice boxes. He let go at him with both barrels of a shot gun, but didn't get his Chinaman, though he did get blood.

Mike Mickleson, of Jackson county, loaded an anvil with powder and fragments of iron and set it for a bear. In the night the report of the anvil was heard. Next morning the bear was found badly wounded and a few rifle shots dispatched him. He weighed nearly 500 pounds.

The *Statesman* says: Grand Ronde Indians are almost rebellious over the changes and exchanges of agents and overseers of that Agency. They say they are willing to be let alone, and can run the machine without any boss. They don't mind a change of agents every year or six months, but they have had three in the last six months and are beginning to believe that white men are very uncertain.

We take the following concerning the Chemeketa hotel affair from the *Statesman*: We have investigated the business as far as possible and give the following particulars as about the correct thing: Walter Bros. have a claim for, in all, $26,800, and hold the company's note and chattel mortgage on the furniture, and the third lien on the hotel building. They offered to sell the furniture for $12,000, which was cheap enough in all conscience, or they would sell the whole claim for 60 cents on the dollar and release the stockholders. Individuals stood ready to purchase the furniture if they could have assurance that it could stay in the house, but no definite owners can be found for the property, as the stockholders have a right of redemption if the house is sold on foreclosure, and the mortgagees have no certain title until the time for redemption shall have expired. Of course the matter could have been arranged by consent, but we venture the assertion that there is a little game of freeze out involved in the whole thing which will succeed better for the present difficulty, and waits for such a climax to bring it to a head. When the hotel ring freeze out the minor fishes and can secure title to a property which cost $100,000 by lifting a mortgage claim of about $30,000, the hotel will be refurnished and reopened.

THE TERRITORIES.

Olympia has contributed $810 00 to the relief of Chicago.

At Olympia one day last week, there was the highest tide that has been witnessed there for six years.

Miss Eliza McCarty, aged 28 years, youngest daughter of Rev. John McCarty, of Vancouver, died in that city on Monday last.

Rev. John F. Damon has resigned the pastorate of the Plymouth Congregational Church of Seattle, and will hereafter labor as missionary at large for Washington Territory.

The Olympia *Standard* says: The Spencer claim of 160 acres, adjoining the 1,000-acre donation to the railroad on the west side of Budd's Inlet, has been purchased and will be added to the donation as soon as the money is raised. This will undoubtedly secure the location on that side of the bay.

From the Olympia *Courier* of the 13th, we learn that Frank Byles, twelve years old, and son of David Byles of Elma, Chehalis county, was drowned on the 5th inst., by the upsetting of a small boat, in which he and his brother Hugh were taking the dinner to a man who was at work on their father's farm, a short distance from the house.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Increase of Small-Pox.

NEW YORK, Jan. 18.—Reports of the increase of the small-pox in this city begin to excite alarm. Cases have increased within the past week from 3 to 83, and the disease seems to be confined to no one section. Vaccination is rapidly progressing, but among the lower classes of Germans who object to vaccination the contagion is making the most marked ravages.

West Virginia Affairs.

CINCINNATI, Jan. 18.—After a spirited debate in the Constitutional Convention at Charleston, West Virginia yesterday a resolution to remove to Wheeling, was laid on the table. The Mayor of Wheeling offers free transportation and good quarters if the convention will remove.

New York News.

ALBANY, Jan. 18.—A New York special contains a startling disclosure with reference to the criminal court of that city, or what is known as the court of Oyer and Terminer. It seems that a case is now pending in the Court of Appeals, the decision of which may set free every man now undergoing imprisonment in accordance with a sentence by the former tribunal since 1853. This court has been presided over by a Judge of the Supreme Court sitting alone, but it transpires that the act of that year was repealed by the charter of 1870, leaving the court of Oyer and Terminer to be determined by act of 1847, which provided for a Supreme Judge and two Associate Judges. This curious state of things is given additional interest by the fact that if the criminal court is decided to be illegal, the indictment of Stokes by the grand jury empannelled and charged by the court is void. It is claimed this would grant him immunity from any punishment for his crime.

A subscription was started yesterday among the crowd gathered to witness the unveiling of Franklin Square for the purpose of procuring a statue of Horace Greeley, to be erected opposite the statue of Franklin at the lower end of the square. Six hundred dollars were subscribed, comprising among other names Mayor Hall, Henry Ward Beecher, William Orton and Samuel G. Courtney.

At the Franklin banquet last evening Mayor Hall was cheered, and made a response to the toast, "The city of New York."

Chicago News.

CHICAGO, Jan. 18.—The twenty-ninth annual commencement of the Rush Medical College was held last evening. Seventy-seven graduates received diplomas—among them John Gardiner of Yolo county, California.

The City Council held a meeting last night to take action on the proposed fire ordinance. A large force of police were in attendance to prevent a recurrence of the disgraceful scene of Monday night, when the meeting was broken up by a mob of the opponents to the extension of the fire limits. A message was received from the Mayor reviewing the facts of the riot, and stating that he had requested the State Attorney to bring those before the grand jury, and that the leaders particularly and all others, who can be identified shall be dealt with according to law. He adverted to the fact that one alderman was reported as ringleader in the affair and recommended an investigation of the case by the committee. He assured the Council that they should be protected in the discharge of their duties, and that the peace and good order of the city should be maintained at any cost. If the police force is insufficient then the military power of the State will be promptly invoked, and he pledged himself that the ordinance, whether it covered much or little ground, should be enforced. No definite action has been taken on the ordinance, but indications are that the original proposition will be modified somewhat.

MEXICO.

General News.

NEW YORK, Jan. 18.—A special from Mexico dated January 10, says: Bliss, our Secretary of Legation, states that the result of his investigation into the Bark Brothers affair, He confirms the statement of American Captains.

A Mexico dispatch of the 15th, states that there was great rejoicing over the success of the Government forces. Five thousand Government troops are under orders to march to the frontier. Gen. Quiroga, rebel commander, it is stated, was confident of ultimate success as resulting, and intelligent classes in the country will aid the revolutionists.

"The Attitude" of the Senate on Reform.

[From the Washington Chronicle.]

The declarations of Senators indicate a most gratifying unanimity of desire for retrenchment and reform. Every one proclaims himself in favor of the most thorough, wide, and searching investigation. There is, however, a difference of opinion as to the formation and powers of the necessary committee. Those who favor the proposition of Mr. Trumbull insist that all who oppose it are opposed to investigation and reform, and so promptly have the anti-Administration papers throughout the country seized upon the idea, so unanimous is the delight which they manifest at the attitude in which these Senators have placed the others, that it almost suggests a preconcerted understanding and arrangement among them. Of course, however, this is but the result of the apparent success with which these gentlemen, called the friends of the Administration, have been made to stand in seeming hostility to reform. Whether they are thus hostile in fact is readily seen by looking at the things actually proposed and done.

The Republican members of the Senate, after consideration, decided not to revive the Joint Committee of both houses on Retrenchment, but to create a standing Committee of the Senate on Investigation and Retrenchment. Accordingly, a resolution was offered by Mr. Anthony to create that committee in precisely the same manner and precisely the same footing as other standing committees of the Senate are created. To this resolution Mr. Trumbull submitted his proposition as an amendment.

This amendment was opposed on the ground that all standing committees of the Senate should be created alike; that instructions to a committee should be given after the committee has been appointed, and for this weighty reason that no standing committee of the Senate should be permanently invested with authority to send for persons and papers to examine without the knowledge of the Senate, or any one else whomsoever they please, on whatsoever subject they please. This was to create a Star chamber. All these were proper arguments against the adoption of the Trumbull Amendment as a part of the resolution creating this standing committee, and this was the real point to which they were directed.

But the debate ranged over the whole subject, and the friends of the Trumbull amendment argued for it as though opposition to it in that form and place was absolute opposition to any reform whatever. This is obviously not so, for those who voted for the old Committee on Retrenchment might just as well have been charged with being enemies of retrenchment, for the resolution creating the old committee contains no extraordinary powers. All those unusual powers were conferred subsequently, as Congress saw that the efficient action of the committee required. This was the course which the majority of the Republicans decided to pursue in the present case. They therefore defeated the Trumbull proposition as an amendment.

The Republican members subsequently agreed that, as an instruction to the committee, there was no objection to the greater part of the proposition of Mr. Trumbull. They did see objection to making the committee a Star chamber. They did insist that the Senate ought to be consulted and its authority asked whenever it was deemed necessary to send for persons and papers. Therefore this feature of the Trumbull proposition was not approved. The majority of the Senate stand ready to adopt the remainder of the proposition substantially, as instruction to the committee for the present session, and to grant authority to send for persons and papers in any case in which the committee shall give reasonable ground for asking it.

This, obviously, is not opposition to investigation, but it is a support of a proposition for the fullest investigation under such guards as the rights of citizens and the responsibility of the Senate require.

This is the real attitude in which the majority of the Senate stand. So standing they are pledged to investigation as broad and minute as that proposed by any Senator who has contended against them in the recent debate. If the friends of the Trumbull proposition have succeeded in placing them, as one of these gentlemen declares, in a false position, it is because of their vigor and skill and the agility with which the anti-Grant newspapers have sprung to their aid. These gentlemen will not remain in that false position. By their acts they will prove their sincerity, and their faithfulness to all workers, ... and practical reform.

The Narrow Gauge.

ITS ADVANTAGES OVER ALL OTHER TRACKS.

[From the American Manufacturer.]

If we can take the practical progress of an idea in the use which is made of it as an index of the manner in which it is affecting the public mind, there would seem to be no difficulty about arriving at its strength or utility, or at all events its popularity. And if we view the narrow gauge question from this basis, we are bound to conclude that there is more in it than many persons who are authority upon such matters are willing to admit. It is rare that we pick up a railroad journal, or in fact any one of the general newspapers, without finding an item concerning the construction, or proposed construction of a narrow gauge somewhere. But one or two, of any great length, have been completed, although many short lines have for some time been in use; but the number under construction and contemplation is quite numerous, showing that the idea has made sufficient impression to be regarded as practical.

This would seem to indicate that a revolution was about to be wrought in railroad matters—that despite the old and powerful companies, who are supposed to govern with absolute sway all such questions, sufficient faith has been established in the new plan to bring it directly before the world for test, and to show, if possible, that the mistake is made in the gauge of railways, that mistake is in the broad gauge. There is, at all events, a conviction prevailing among some of the best railroad engineers in the country that the narrow gauge must be a success, and they are devoting their energies to prove the conviction to be true.

Now while the history of the broadest gauges in the country has proven conclusively that they are a failure, in every stage and sense, and the broader the gauge the more so the failure, it does not necessarily follow that the popular gauge is a mistake, and that it has taken forty years to arrive at the discovery. Yet we find men who contend that when the narrow gauge is brought into direct competition with the popular or intermediate the latter will be proven as great a mistake as the six foot is now shown to be. But this can only be decided by time. It should be remembered, however, that the narrow gauge party show the alto ... hand at a ... which they are now playing with no ordinary skill. If converts are added to their number for five years, proportionate with the strength they have already obtained, the broad gauge party will have a strong foe to contend with, which they cannot overthrow, as by that time they will be so formidably entrenched that they cannot be defeated, unless they too have adopted ... mechanical, geometrical and scientific principles.

Attorney-General Williams.

Of the appointment of ex-Senator Williams to the office of Attorney-General, the Albany (N. Y.) *Evening Journal* says:

The appointment is one in every way worthy of the highest commendation. It ... admirable officer commands a wise ... and increases the personal and political ... of the Administration. Whether upon ... political or representative grounds the ... could hardly have made a fitter selection.

As a member of the United States Senate for six years, Mr. Williams made an excellent reputation. His speeches showed him possessed of a clear mind, of great legal acumen, and of broad and statesmanlike views. In every point of professional requirement, he is unquestionably well equipped for the place. We recall particularly his argument on the question of impeachment as a master piece of close, logical, incisive reasoning. Among his associates in the Senate he commanded great ... for his high intellectual qualifications, as was shown by the general compliment of being confirmed immediately upon his nomination.

Mr. Williams' career in the Senate also showed that he is a statesman of enlarged views and a counsellor of discretion and prudence. He commands the confidence of his party, and is generally recognized as the ablest public man in the Pacific States, which have not before had a representative in President Grant's Cabinet. His entrance is a valuable accession to the Administration.

In view of the proposal now before the Quebec Parliament to raise $20,000 to assist in immigration to Canada, the Toronto *Telegraph* inquires: "What is the use of our expending money and effort to bring people here from other countries, when we ... keep our own people at home?"

The Daily Oregonian.

FRIDAY MORNING, JANUARY 19, 1872.

Scio Leads

There is delight in Democratic circles throughout Oregon. It was feared that that pining atrophy, the passive policy, might take hold of the party here as it has done in other States. There were gloomy forebodings and painful apprehensions. Democrats didn't exactly know whether they could trust each other or not. Passivism had begun to manifest itself in unexpected places. Congressman Slater became infected with it. Senator Kelly likewise. It was chilling the very marrow of the party. There began to grow in some minds a question whether the State Convention, which is to assemble in April wouldn't resolve itself into a coroner's jury to sit on the "passive" remains of the organization, after the fashion of like assemblages in other States. But at this trying crisis the Democracy of Scio, the city that is set like a jewel in the Forks of Santiam, came to the front. Like their brethren at Confederate Cross Roads in the State of Kentucky, they held a meeting, and resolved:—

That, while we yield obedience to the Fourteenth and Fifteenth Amendments, we cannot forget that they were ... by force, and the Democratic party, upon its accession to power, stands pledged by the potent pulsation that throbs in the heart of every true Democrat echoed in the spoken and written words of its time-honored leaders to repeal the obnoxious amendments and all subsequent legislation pertaining thereto; and we would rather suffer defeat in adherence to principle than to triumph with Chase, Trumbull or Sumner as our Presidential candidate upon a "New Departure" or "Passive Policy" platform.

Thus speaks Scio, gallant leader of Oregon Democracy! The organs of the party rejoice. Scio has come to the rescue. Scio shows how the thing is to be done. And now that Scio has led off, there is nothing for the Democracy throughout the State to do but to follow her illustrious example. To be sure, Scio has nothing better to offer than the reflection that defeat with the banner of the party still upreared is better than death under the passive policy. But even this is something, for the bard of nature tells us that,—

> The weariest and most loathed earthly life
> That age, ache, penury or imprisonment
> Can lay on nature, is a paradise
> To what we fear of death.

Undying hostility to the Constitutional amendments is still Scio's creed. With fine alliteration Scio tells the world that she is "pledged to potent pulsation" of her Democratic heart to tear those vile, intruding amendments out of the Constitution and to trample them under her feet. And Scio don't promise what she don't perform.

One of the jubilant organs of the party exclaims that Scio has given to the Democratic party its next platform. All that is to be done, therefore, is for the party to assemble in convention on the 10th day of April next and reaffirm the Scio resolution. But the party's national platform will be something different. In that document the constitutional amendments which the Oregon Democracy denounce will be explicitly accepted. And then Scio will go in mourning and the Democracy of Oregon will put on raiment of gunn bags and sit down in the ashes of sorrow.

A Great National Park.

Much attention has been drawn of late to the wonders of the Yellowstone region. N. P. Langford of Montana, the leader of the famous Yellowstone expedition of last year, is now in Washington, and, in connection with Professor Hayden, who had charge of the Government expedition of that year, is engaged in promoting the project of declaring all of that district, including the canyon of the Yellowstone, the hot springs, and the geysers, a Government reservation, for the purpose of holding it forever as a National Park. Copies of the May and June numbers (1871) of *Scribner's Monthly*, containing Mr. Langford's graphic story of the "wonders of the Yellowstone," have been furnished to every member of Congress. Professor Hayden has prepared an article for the February number of *Scribner's*, in which he confirms Mr. Langford's account, describes additional marvels discovered by himself, and takes strong ground in favor of the Park project. Such a Park will in time attract to it crowds of the pleasure-seekers and scientists of Europe. It is not only remarkable for its scenery, but in a scientific point of view is said to be "the most marvelous region on the face of the earth." The illustrations which are to appear in the February number of *Scribner* are from photographs taken by the recent expedition.

The opening up to tourists of this marvelous region, observes the St. Paul *Press*, will inure greatly to the benefit of the North Pacific Railroad, the line of which will run close by the two extremes of the horse-shoe shaped range of mountains which encircle Yellowstone Lake and the Geyser basin on all sides save on the north, and which are everywhere impassable. The region is only accessible from the north, and through Montana.

Messrs. Sumner, Schurz and others wished to control appointments. Mr. Sumner was resolved to dictate who should be Minister to England, and did control that appointment for a time. Mr. Schurz attempted to dictate appointments of various sorts, but couldn't get all he wanted. Ditto Mr. Tipton. What then? These gentlemen became very hostile to General Grant and blatant advocates for reforms of abuses practiced in making appointments! They want politics and political influence entirely eliminated from the civil service, since they haven't influence enough to dispose of offices and patronage to their liking. Brave reformers!

The Board of Managers of the State Agricultural Society at their recent session at Salem considered the whole subject of the "badge rule." It was decided to retain the rule and to make additional provision for its more effectual enforcement. Hence all persons entering the grounds will be compelled still to wear the badge. We cannot but regard this decision of the Board as ill-advised and as likely to do injury to the Society. Discontent with the rule will be very manifest at the next Fair.

The Supreme Court of the United States lately rendered a decision declaring all State laws imposing a license tax upon all commercial travelers null and void. The decision is simply that commercial travelers are not, in the eye of the law, peddlers. It does not declare that State and municipal laws imposing a license tax upon peddlers are null and void, as has by some been supposed or alleged.

It is rather amusing to note the perplexity which has come over such Democratic journals as have been denouncing the Republican party for not adopting Senator Trumbull's civil service resolution. Now that more has been adopted than was embraced in that resolution, they are in a real dilemma.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

NEW YORK, Jan. 8.—Fisk's ante mortem statement was read, despite objections by the prisoner's counsel. Graham protested it was a burlesque of justice. The jury retired at 5 o'clock and at 7:50 submitted verdict, all signed, that Fisk came to his death in consequence of a wound or wounds inflicted by a ball or balls from a pistol in the hands of Edward S. Stokes, discharged by him in a deliberate manner at the person of said Fisk at the Grand Central Hotel. The Coroner committed Stokes to the tombs to await the action of the Grand Jury.

Williams to-day formally assumed charge of the Department of Justice. It is understood he will pursue the exact course laid out by Akerman.

The Woman's Suffrage Convention held their regular semi-annual meeting to-day. Mrs. Cady Stanton made a speech. Victoria Woodhull also spoke. The latter advocated spiritualism.

Mayor Hall to Resign.

Mayor Hall publicly announced to-day that private affairs will prevent him from attending to the duties of the office of Mayor during at least a week. The President of the Board of Aldermen, Gen. John Cochrane, will act as Mayor until his notification shall be revoked. This step is regarded as preliminary to Hall's actual resignation.

Death of Gen. Halleck.

LOUISVILLE, Ky., Jan. 10.—Gen. H. W. Halleck died at his residence in this city at 8:25 last night of congestion of the brain, superinduced by disease of the liver, from which he had long suffered. The body will be taken to Greenwood Cemetery, New York, for final interment.

Funeral of Gen. Halleck.

LOUISVILLE, Jan. 11.—Gen. Halleck's funeral takes place at Christ Church (Episcopal) in this city, at 2 o'clock P. M., on Saturday. The military escort will be commanded by Brig. General A. H. Terry, ranking officer of the military District of the South; escort to be composed of portions of the 7th U. S. cavalry, 4th and 16th infantry, with the band of the 7th U. S. cavalry. Rolland, Ballard, U. S. Judge, William B. Knapp, Mayor; Jno. A. Carpenter, and Captain S. M. Smirley will be among the pall bearers. In addition to the family the following officers have been selected as principal mourners by Mrs. Halleck's wish: Cols. Scott, Lyford and Taylor, Gens. Collom, Fry, Baird and McFerron, Surgeon Milhaw, and Lt. Borgen. All are or have been members of Gen. Halleck's personal or General Staff.

NEW YORK, Jan. 11.—The *Herald's* special from London, Jan. 11, says General Sherman landed at Madrid, and after remaining seventeen days, sailed thence to Cadiz, remained there five days and then visited Gibraltar, Malaga, and Seville, and went thence to Madrid, where he was visited by all the public men, and was received by the King and Queen and made a long speech at a banquet given by the American and English Legations. He visited the *Escurial* and returned to Madrid, which he left Tuesday night for Nice to join the Wabash.

NEW YORK, Jan 11.—The Tammany General Committee to-day applied to Judge Barnard to try a writ of mandamus compelling Sabbens to admit them to the Hall. It is understood that the writ will be granted as soon as the papers are fully prepared.

Stokes was visited in prison to-day by his father. The interview lasted two hours and was very affecting.

The Board of Aldermen to-day removed all attaches of the old board.

The Grand Jury indicted 12 election inspectors of Sixth Ward for fraudulent practices. All appeared in court and gave bail.

ST. LOUIS, Jan. 11.—The Grand Duke Alexis and suite left at noon for the West, via St. Louis, Kansas and Northern Railroad. In consequence of the mild weather the original plan for a buffalo hunt will be carried out. The party will go direct to Omaha.

ATLANTA, GA., Jan 12.—Governor Cooly in his message says he will yield to the decision of the Legislature as to who is Governor. Both branches of the Legislature met and declared J. M. Smith Governor. To-morrow fixed for inauguration.

BOSTON, Jan. 12.—An unsuccessful attack was made on Friday night to rob the Great Falls Bank.

RICHMOND, VA., Jan. 14.—The Right Rev. Jno. McGill, for twenty-one years Bishop of the Diocese of Virginia, died here this morning, aged 62 years.

SAVANNAH, Jan. 14.—A special to the *Herald* says negroes in McIntosh county, headed by G. G. Campbell, a negro official, are in a most excited condition. Owing to their threatening attitude, whites are arming for protection. The trouble with the negroes is apparently caused by an act of the Legislature appointing white commissioners to change Campbell's official documents and papers.

CHICAGO, Jan. 12.—A Washington special says the action of the Senate in legislating almost adversely to the admission of the six Japanese students as cadets at West Point, has induced the Japanese Minister to visit Senators and induce them to reconsider their votes. The Japanese Government proposes to pay all expenses of the cadets, and only desires to send them to West Point as they believe it to be the best military school in the country. Most Senators object to admit foreigners on account of the Precedent.

Secretary Boutwell sent a reply to the House yesterday in response to a resolution of inquiry, adopted before the recess, showing that Generals Howard and Bullock of the Freedmen's Bureau, had invested Government funds in their hands in United States bonds, and used the interest to make good their losses in the bureau by erroneous payments. This was the direct cause of Bullock's removal.

At the suggestion of the Secretary of War, the Treasury Department received Rothschild's proposition to-day, through the Banking house of Jay Cooke & Co., of this city, to take six hundred million dollars of the new loan. The time in which to make subscriptions is stipulated to extend to twenty-two months. One hundred millions of the amount is five per cent, one-half to be taken at once and the balance within a year. Three hundred millions are four and a half per cent, and $200,000,000 are in four per cent.; the condition of the last two named some being that the interest accruing therefrom shall be paid in Europe.

The President sent to the Senate to-day the following nominations: Jos. F. Liggett, of Kansas, Governor of Washington Territory, and Horace H. Harrison, United States Attorney for the Middle District of Tennessee.

NEW YORK, Jan. 12.—An Albany letter states that Tweed has notified his friends he is not going to claim his seat in the Senate. The Chiefs of Tammany have passed a resolution closing Hall to all political committees or organizations. The preamble asserts that no general Democratic committee was elected in 1871. This action ignores the recently constituted committee of the Tammany organization proceedings, which the *Herald* thinks will lead to a further disruption of the Democratic party in this State.

In the Custom House investigation to-day, several letters were received complaining of the losses of goods while in the custody of the Custom House officials. The committee received a tabular statement of the number of persons employed and discharged in the Custom House under the last six Collectors, showing the removals under Grinnell to be 57, and Smith 87.

The Committee is examining Geo. Palmer, ex-Appraiser, who testified to various alleged irregularities in the way of appointments to office.

NEW YORK, Jan. 14.—The Fisk-Mansfield correspondence has been published, prefacing them with the history of Stokes' connection with Fisk; their subsequent quarrel over the woman Mansfield; Fisk's final breaking with the latter; her consequent rage, which caused her to put Fisk's letters to her in Stokes' hands; Stokes attempt to bleed Fisk with them by threats of their publication; all which has been made public before. The letters are extraordinary in some respects. They are such as a man would write to a woman with whom he was infatuated. No revelations about Erie or Tammany appear in those published, which are said to be all there are in existence.

NEW YORK, Jan. 14.—A fire broke out and raged from 2 to 9 o'clock this morning, in the block sawmills and lumber yards on First avenue, between Thirteenth and Twelfth streets, extending to East river. Two saw and planing mills, varnish factory, and immense quantities of lumber were consumed. A strong wind was blowing which threatened to be serious. The whole Fire Department was called out. A large quantity of benzine was removed just in time to prevent an explosion. The total loss is $215,000. The fire is supposed to have been caused by the carelessness of a watchman.

NEW YORK, Jan. 17.—James Gordon Bennett, Jr., is mentioned as the successor of Fisk as Colonel of the Ninth Regiment.

The Custom House investigation committee this afternoon visited the general order store. At the evening session Charles P. Franklyn, local agent of Cunard Steamship Line, was examined. He said the chief reason why merchants import now by way of Boston and Baltimore is the frequent delay in passing goods here, and the high tariffs.

NEW YORK, Jan. 17.—The fall clip of California wool is quoted at 37½@40c. Gold is more active, closing strong at 87⅞.

The Wharton Case.

ANNAPOLIS, Jan. 17.—Revel, State Attorney, concluded his opening argument in the Wharton case this forenoon, and was followed by Hague for the defence.

Five ballots were taken in the Legislature to-day for United States Senator without a choice. The last vote stood: Vickers, 28; Dennis, 22; Earl, 9; Thomas, 9; Henry, 12; Creswell, 14.

The Louisiana Troubles.

NEW ORLEANS, Jan. 17.—The political troubles continue. The Warmouthites in the Senate have no quorum. In the House 52 are present. The Carterites in the House have 41 present, and 21 in the Senate. Police occupy the street, blockading approaches to the State House.

NEW ORLEANS, Jan. 17.—Matamoras latest dispatches announce the complete investments of Mier by Cortina.

Four or five hundred revolutionists under Gen. Quiroga have been driven into the plaza where they are vigorously defending themselves. Cortina's troops being better armed are inflicting severe loss on the insurgents. Quiroga's only chance of escape is through expected succor from Monterey who is reported enroute to raise the siege.

NEW YORK, Jan 17.—The *World* states that Stokes' friends affirm that the Fisk-Mansfield letters will yet be published and will establish the connection of Fisk with the murderous assault upon D. B. Eaton, whom Fisk had been anxious to have put out of the way on account of his knowledge of affairs.

An Albany dispatch states that a flood of remonstrances is pouring into the Legislature against the Erie Railroad being controlled by English monopolists.

Trouble on the New Foundland wires delay cable dispatches to day.

NEW YORK, Jan. 17.—Mayor Hall has resumed his office.

The Bank Examiner Callendan has been held for trial.

WASHINGTON CITY.

WASHINGTON, Jan. 10.—The President was visited to-day by a delegation of colored men who are advocating the passage of Sumner's supplementary civil rights bill. They ask that the President would send a message to Congress asking for the passage of this measure as an amendment to the pending amnesty bill. The President remarked that he had no doubt the colored people were deprived of some of the rights and privileges to which they had a clear claim. His impression was that the recent amendments to the Constitution conferred upon them the privileges of citizenship, and thought the courts would accord legal rights with regard to amending the amnesty bill by an additional supplementary civil rights bill. The President considered that such action would jeopardize the passage of an amnesty law, while, from his knowledge of Sumner's bill, he believed it could pass on its merits as a separate measure.

WASHINGTON, Jan. 14.—The President continues to receive numerous telegrams from New Orleans which, with those privately addressed to other parties, do not indicate an early termination of political troubles. A resolution for the appointment of an investigation committee may be moved in the House to-morrow. Some of the members of Congress express the opinion that a correct history of the trouble can not be obtained unless such committee transact their proceedings at New Orleans, and say if troubles should end, before the committee could reach there, information, officially obtained, would be valuable in view of future legislation. It is known that Gen. Grant is desirous of avoiding a declaration of martial law and it will not be resorted to unless from absolute necessity. He privately said it would be proper for Congress to take initiative measures tending toward pacification. The Gen. replies to-day declining to give aid or advice, saying that it is not considered proper to interfere with the organization of Legislatures in any way, adding that he had decided not to bring any troops into service again unless ordered to do so by the U. S. Government. He sent similar communications to the Governor and the latter has in consequence ordered out the entire malitia of the city to-morrow.

LITTLE HOMES!

WE HAVE OBTAINED MANY TESTIMONIALS, which appear in the WEEKLY OREGONIAN, for the purpose of answering once for all the many inquiries in relation to our "LITTLE HOMES." We desire to show to strangers, through men of known integrity in this community that they are all that we claim for them—Cheap at the present prices, and the speculation lies in the future growth of Portland, and of the stock in the building of Railroads, and of Bridges over the Willamette—which is merely a question of time—and in the fact that lo less than one mile Clinton's Blocks (200 feet square) are selling for from two to three thousand dollars and in less than two-and-a-half miles (on a direct line) blocks are selling as high as $200,000 per block! Just think of it! $50 per acre for land and 2½ miles distant, $200,000 per acre! New York city is over twenty miles in length and six miles wide, and many other cities in the United States are half that long, and quite as wide, and if Portland becomes a metropolis, she will require this land for business purposes. Thirty years ago we could have purchased a section of land where the business portion of Chicago now stands for $10 per acre—$50 for a five acre tract. Thirty years ago we could have purchased the town site of Portland for a Cayuse pony—*didn't have the pony!* Twenty years ago a solitary individual, with neither money nor friends, found himself in Portland without a red. He purchased a basket "on tick," and filled it with oranges, on the same terms, and went to peddling. Twenty long, eventful years have since elapsed. Still that sturdy old pioneer has stuck to Portland, and worked his way through thick and thin; and now where do you think he is:—*in the poor house, and owes for the basket!* But to our

FRIDAY MORNING, JANUARY 19, 1872.

CITY.

CITY LICENSES.—Up to this date the following city licenses have been had: Eighty-five saloons at $50 each; six lager beer saloons, $25 each; five restaurants, $6 25 each; one dance house, $75; one pretty waiter girl establishment, $50; nineteen billiard tables, $5 each; nineteen hotels, at from $15 to $25 each; five hotel runners, $15 each; ten hacks, $8 each; twenty eight drays, $5 each; thirteen trucks, $8 each; twenty-two two-horse wagons, at from $5 to $8 each; sixty-seven one-horse wagons, at from $3 to $5 each; Oro Fino Theatre, $50; five wharfingers, $10 each; one auction house, $40. The amount derived by the city from licenses alone will amount to over $7,000 for the present quarter.

THE STARK STREET FERRY.—The East Portland *Era* has no particular admiration for the manner in which this ferry is run. In yesterday's issue of that paper the slow and uncertain movements of the boat is thus taken off: "After making sundry inquiries, we are enabled to state that, the general opinion prevails, she will reach Portland next Sunday evening—making the trip in three days. The services of an excellent pilot have been secured, and there is little doubt but that she will touch at Astoria and all the intermediate points during the voyage. She may stop at San Francisco a few hours if the passengers so desire, and the pilot is not too fatigued."

THE CAUSE.—Several items have appeared in the papers from time to time regarding the slow progress of work on the Custom House and Postoffice in this city. It is proper to state that the delay is attributable solely to the failure of the contractor to furnish stone as fast as needed. The Superintendent of construction, Mr. St. John, is in no way responsible for the delay. The Department has dealt leniently with the contractor, instead of holding him to the strict letter of his bond as to time of delivering the stone. Hence the slow progress of the work.

HOW IT USUALLY ENDS.—We have noticed that in a great majority of instances where a woman has had her husband arrested for beating her, that when the case is called she either refuses to appear or requests that the complaint be withdrawn. This was the case of a Mrs. Miller, who on Wednesday night had her husband arrested on a charge of assault and battery. Yesterday when the case was called in the Police Court Mrs. Miller, from some cause best known to herself, chose not to prosecute the case, and accordingly Miller was discharged.

NEW COMPANY FORMED.—The San Francisco *Call* copies an article from the New York *Herald* giving particulars of the formation in New York city of a company, with the stockholders of the North Pacific Railroad principally interested, for the purpose of building or purchasing steamboats for plying on the Columbia river, and for building or purchasing ocean steamers to run between here and San Francisco. Capital stock of the company is put at $1,500,000, with power to increase the same if found necessary.

RUN AGROUND.—Night before last the steamer *California*, while on her way to Vancouver to discharge some Government freight, ran aground in the Columbia opposite the mouth of the Wallamet. Mr. Weidler yesterday dispatched some lighters to take off some of the coal, which she had for the Portland Gas Light Company, and it is supposed she was got off some time last night.

FROM THE CASCADES.—The steamer *Hayward* arrived last evening from the Cascades, bringing a few of the passengers who came down by the *Idaho* from the Dalles to within six miles of the Upper Cascades. Snow at the Cascades is two feet deep on a level. The coldest day was fifteen degrees above zero.

PRAYER MEETINGS.—The noonday prayer meetings held in the rooms of the Young Men's Christian Association are reported as attended with as much interest as they were last week. The Methodists' prayer or class meetings held in the evening of each day of the week are reported as attended with equal interest.

ACCIDENT.—Yesterday the *Hayward*, coming down from the Cascades, broke her rudder stock, and it was with considerable difficulty that she could be steered. She will not be in a condition to go out this morning. As it is now, for a time there will probably be no connection with the upper country this week.

A PETITION.—Tax-payers and property-owners are signing a petition to the Common Council, asking that body to open, extend and lay out a continuation of Second street to the width of seventy feet, in a direct line, northerly, through blocks nine and twelve, in Couch's Addition to North First Street.

OBSCENE PUBLICATIONS.—It is a noteworthy fact that the obscene papers, which the newsdealers of Syracuse, N. Y. were punished for selling, are publicly displayed in front of nearly all the principal stores of this city. We want a little of the Syracuse law here.

A NARROW ESCAPE.—Yesterday morning a man named Green, who was engaged in tapping the gas main, at the corner of Pine and First, came near losing his life by inhaling the escaping gas. Medical assistance was called in and the man restored to consciousness.

GONE TO THE COUNTY JAIL.—A Chinaman who was arrested on Wednesday night for stealing a number of ducks from the provision store of Martin & Berry, First street, was sentenced in the Police Court yesterday to the county jail for 30 days. Dear ducks.

SERIOUS ACCIDENT.—Yesterday morning a man named Evans, who was engaged in working on a building on Front street, fell from a scaffold, a distance of thirty feet, breaking his right arm and injuring himself about the head and shoulders.

ERROR.—No land slide has occurred blocking the road at the Cascades. The statement to this effect, published a day or two since, was, as we learn from Mr. Brasse, an error.

THE OREGON CITY ROUTE.—The steamer *Senator* will resume her place on the Oregon City route this morning. Hereafter there will be a morning and evening boat.

THE CHETAH.—It may be as well to mention in connection with the arrival of this vessel that the "chetah" is the name of a leopard, which is found in India.

SCALDED.—Wednesday afternoon a little girl, the daughter of a Mr. Egan, who resides on Fifth street, fell into a tub of hot water, and was badly scalded.

POSTPONED.—The sailing of the steamer *Oriflamme* for San Francisco has been postponed until to-morrow (Saturday) morning at 1 o'clock.

SHIPPING INTELLIGENCE.—The *Okanagan* and the *Merrimack* will probably arrive this evening with the barks *Metis* and *Chetah* in tow.

PERSONAL.—J. H. Lane and mother, of Halsey, arrived in San Francisco from the East last evening.

AMUSEMENTS.

THE BALL.—The ball given by the Rebekah Degree Lodge last night was by far the most successful affair of the kind ever given in this city. The Skating Rink, the largest hall in Oregon, had been secured for the occasion, and was most beautifully decorated with flags and evergreens. The scene presented by the gaily dressed dancers, as they whirled around the room to the enticing music of the dance, was one that will long be remembered by those who were present. The attendance, although large, was of a very select character. The ladies were dressed with good taste, and in many instances, with elegance. The ball opened with about one hundred couples on the floor, and the number was considerably augmented by arrivals during the evening. We simply speak the sentiment of all who were present when we say that it was the most enjoyable and successful ball ever given in this city.

ORO FINO THEATER.—Mr. Waldron had another notable audience last night, who enjoyed heartily his finished personation of Enoch Arden. It is due to the management to state that extreme liberality and good taste is shown in the stage embellishments, and that the play of "Enoch Arden" is presented with all the perfection of detail that the most exacting critic could ask for. The same bill will be presented to-night.

RELIGIOUS INTELLIGENCE.

PERSONAL, LOCAL AND GENERAL.

[From the Advocate.]

The quarterly meeting at the Centenary M. E. Church, East Portland, will commence on Saturday next, at 2 o'clock, P. M., with preaching by Rev. Wm. Roberts, Presiding Elder.

Rev. J. E. Anderson, of the M. E. Zion church, arrived by the last steamer, to enter upon his duties as Presiding Elder of this district. His field is a large one, embracing all of Oregon and Washington Territory, and also British Columbia. He ought to have several assistants.

The National Association, formed for the purpose of securing an amendment to the Constitution of the United States, which shall make that instrument recognize the Divine Existence and indicate that this is a Christian nation, has issued a call for a Convention of all the friends of the measure to meet in Cincinnati, Ohio, on the last day of the present month.

Rev. Daniel Jones, a colored preacher of the Oregon Annual Conference, has removed his residence from Salem to this city. His mission is to establish churches wherever he can throughout the Wallamet valley. He seems well adapted to the work, apt to teach, a fluent speaker, zealous and devoted. We understand that it is his purpose to organize a society in this place, and supply it with the stated ministry.

We learn from the pastor of the Hall street M. E. Church, in this city, that the work of the Lord is prospering in that society. Increased interest is manifest in the meetings. The assembly at prayer meeting last night really assumed the proportions of a Sabbath congregation. Two persons joined by letter. Bro. Meisse says: The Lord of Hosts was with us. We are praying for a deeper work of grace—for the present fullness of Christ.

We are glad to note the establishment of a daily noon-day prayer meeting at the room of the Young Men's Christian Association, over Ladd & Tilton's bank. By a little effort on the part of members, this room may be filled every day with strangers and citizens who will gladly resort thither for spiritual strength, Christian fellowship and prayer. A meeting of this kind has been held for several months in the Taylor street M. E. Church, and has been uniformly attended with spiritual interest and profit. The purpose is to keep it up, and we trust that it also will gain in numbers and power. The most profitable sustainment of these two daily noon-day prayer meetings will speak favorably for the religious influence of Portland.

EAST PORTLAND ITEMS.

[From the Democratic Era.]

There will be plenty of work on the railroad in a few days, so we are informed. Workmen will soon be placed on the gravel bank.

A fellow who had been employed on the Oregon and California railroad had been missing some time, and this week it was discovered that he had left on the last steamer for San Francisco. Several parties hereabouts mourn his departure about two hundred dollars worth.

The Sexton informs us that there were only 86 burials in the city cemetery during the past year.

LOCAL BREVITIES.

On January 2d, the weather was quite mild at Boise City.

A miner named Bob Barry was seriously if not fatally stabbed in a saloon at Fairview, Owyhee, on Dec. 30.

Jas. S. Reynolds has sold the *Idaho Statesman* to Judge Milton Kelly, who took business and editorial control on the 30th inst.

INSTALLATION.—In the Columbia Rebekah Lodge the following officers were installed last evening for the ensuing term by A. J. Marshall, R. W. G. W.: W. H. Watsell, N. G.; Mrs. T. G. Young, V. G.; Mrs. U. E. Hick, R. S.; Mrs. J. H. Dyde, Treasurer; J. F. Johnson, P. S.; C. R. Hoffman, W.; U. E. Hicks, C.; Mrs. W. H. Wetsell, R. S.; Mrs. L. C. Potter, L. S. N. G.; Mrs. W. F. Wilcox, R. S. BUSINESS NOTICES.

YOU, NEIGHBOR, who are taking your daily ten-cent nip, while you know if you were to die to-morrow you would not leave enough to pay your funeral expenses—that same ten-cent nip, (supposing you are now thirty-five years old) would pay your wife and children a clean thousand dollars whenever you should die—sooner or later. And if you will let the nip alone and so prolong your life to the age of sixty-five, the thousand dollars will be payable to yourself. There are plenty of men in this community and all about us who ought to think on these things and call on *Joseph Middlemiss*, Supt. of Agencies for the Pacific Coast—Office 8 Front St., "Central Warehouse."

NO CHARGE FOR CONSULTATION.—Dr. Aborn wishes to inform the afflicted that he makes no charge for consultations. His opinion in all cases is given free of charge.

THE NEW ENGLAND MUTUAL LIFE INSURANCE COMPANY was incorporated in 1835, and is therefore the oldest purely Mutual Life Insurance Company in the United States; it has cash assets of over $10,000,000, and is the only Company on the Pacific Coast governed by the Massachusetts Non-Forfeiture Law, offering all the advantages of age and prudent management, its average expenses being lower than any other Company in the United States. It also offers protection against forfeiture by virtue of the Massachusetts Non-Forfeiture Law, which is a feature of great importance, and should be carefully considered by all persons seeking insurance. TESTIMONIALS.

We the undersigned having been the recipients of the services of Mrs. M. C. White in teaching the science of Music on the Pianoforte, take pleasure in giving a hearty Testimonial that we have employed her in our families as a teacher of her "New Method of Instruction," and that it has proven *superior* to any method we have ever known. And that although the *first cost* may be a trifle greater than some others, we believe it to be in the aggregate *much* cheaper, beside being a great economy in point of time. We therefore take pleasure in recommending her to the patronage of all who may be desirous of obtaining a musical education, as a very superior instructor.

To those who desire to know more about it before interesting any expense, we give a cordial invitation to call at our house and interview her pupils.

MRS. M. C. WHITE—Respected Madam—Having heard of your System of teaching the Pianoforte, known as the Robins' American Method, and having been present a few days since, at the exercises of one of your pupils, Miss Lane, of East Portland, I was much surprised and exceedingly gratified at the perfect performance of the most difficult pieces, (such as Gotschalk Bango, etc.) and this after the short term of six months tuition.

Allow me to express my approbation of your System of your Instruction, and with my best wishes for your success allow me to subscribe myself,
Yours Respectfully,
TH. PARROT, Prof. of Music,

Annual Income, - 1,500,000.00.

Organized on a firm financial foundation, with its Capital FULLY PAID UP IN CASH, its large Assets safely invested, and pledged for the sole protection of those holding its indemnity against LOSS BY FIRE.

The PHOENIX INSURANCE CO. of Hartford, has for many years faithfully prosecuted a Fire Insurance Business successfully and well, encountering obstacles and crumbling them, meeting emergencies and proving equal to them, moving vigorously forward in its noble work, "with malice to none and charity to all," building up where the Fire Fiend viciously destroys, and encouraging enterprise by substantially guarding it.

The losses of the "OLD PHOENIX" in the great Chicago Conflagration and which are now being adjusted and paid, will only absorb about 50 per cent. of the SURPLUS, leaving the Capital unimpaired, with a Surplus of Half a Million Dollars.

FINANCE AND COMMERCE.

THURSDAY EVENING, Jan. 18, 1872.

Gold in New York, 109.

Portland Legal Tender quotations, 91c buying and 92c selling.

Exchange on San Francisco, ¼@¾ ℔c. prem.; on New York, 1½ ℔c. prem.—Telegraphic transfers on New York, 1¼@1¾ ℔c. prem.

Our local finances remain unchanged from last week's review. All regular customers' wants are supplied by the banks at the usual rate—one per cent. per month. The supply of loanable funds remains steady. On the street we continue to hear of growing ease, and money seeking investment, with desirable security, at less rates than have been ruling. With the opening of communications between the Dalles and the Cascades, remittances from east of the Cascades will be liberal, which will cause more general ease in business circles. There is a growing impression among business men that the continued growth of trade, caused by the expansion of our railroad system and direct shipments, calls for more capital on the part of our banks to meet the growing trade requirements.

The steamer *Oriflamme's* time for leaving has again been postponed. This time she is announced to leave without fail at 1 o'clock on Saturday morning.

The steamer from San Francisco, bound up, will leave there Saturday morning, and consequently be due here on Wednesday morning.

Trade for the past week has been quiet, owing to the difficulty of outdoor travelling, and navigation on the Columbia being still closed. But if the pleasant weather of to-day continues for a few days it is fair to presume that the ... from the interior will be largely increased.

The New York *Herald* of a recent date reports the formation in that city of a Company, with Jay Cooke as President, having for its object the building of steamboats to navigate the waters of the Columbia river, and also building or purchasing steamships to ply between Portland and San Francisco.

WEEKLY MARKET REVIEW.

Produce Market.

BREAD—Quotable, Soda, 7½c; Picnic, 7½c; Butter, 7½c; Jenny Lind, 11½c; Ginger-snaps, 11½c; Pilot, extra, 6c; Medium, 5½c; Navy, 4½c.

WHEAT—The market at the beginning of the past week under review was dull and without tone, but upon receipt of advices from Liverpool giving quotations there ... 11d ℔ cental for lots in store, gave it more tone ... advance established over previous offers of $2 05, ... disposed to wait further and later ... telegraph which were received to-day. Our ... Liverpool quotations came through at 12s 9d, a decline ... on quotations per steamer *Oriflamme*. Private advices gave market at 12s 9d in Liverpool with San Francisco market dull at $2 20 ℔ cental, and, in consequence shippers are ... interesting to purchase at even $2 00 ... cental. We have heard of one or two small lots changing hands during the past week, neither of which amounted to over ... centals; and were purchased on ... As has been stated by us heretofore, if parties are forced to pay ... they would have to pay from $2 10 ... per cental and any one desiring to sell would ... to make shipment ... no other regular ... in the market and not likely to be, under present advices for both Wheat and Flour in San Francisco. The bark ... will finish loading this week ... when they will ... The ... from the United Kingdom, are due next month and will probably be secured for the United Kingdom. With them our direct shipments for this ... will be closed, unless vessels can be secured in San Francisco to come up and load for the United Kingdom.

FLOUR—Millers continue to grind their Wheat with as much dispatch as possible, in order to dispose of their ... at the high rates now ruling. Were it not for the high price of Feed millers here and also in San Francisco ... they would not be able to meet expenses at the price paid for Wheat and the prices ruling for Flour. But little of the surplus is retained here, the majority being sent to San Francisco, where it meets with ready sale at current rates. ... two or three of our favorite brands are said to be disposed of in that market at 25 cts ... California brands. The Str. ... and bark Webfoot will take on for San Francisco ... 7,000 bbls; the bark *Alden Besse* 5,000 bbls ... and the steamer *California* 2,600 bbls for Victoria and Sound ports, making a total shipment of not less than ... which will be apt to make a very ... the stocks now carried. The week under review has until towards the close been devoid of animation and trade confined entirely to local requirements. We quote jobbing rates firm for extra of standard ... at $7 ... bbl; choice country, $6 00@6 75 ℔ bbl, outside and superfine, $5@5 50.

OATS—The market, which has been drooping under ... from San Francisco, has at length ... way, and although dealers are jobbing at ... cental, yet we doubt if any can be placed at over ... cental, if for that. The supply in the country, from information reaching us, is small, not sufficient ... demand by home to meet the wants of contractors on ... different railroads, who will in all probability have to draw some of their supplies from us.

BARLEY—Brewers are obtaining their supplies from San Francisco, in consequence of navigation on the Upper Columbia being closed. We quote market at $2 75@2 85 per cental.

POTATOES—Choice Oregon are in light supply, but heavy shipments from California have supplied the want. Continued heavy receipts from that source has broken the market, which we quote weak at $1 10@1 30 per 100 lbs.

ONIONS—Receipts equal to demand with market ruling at $2 50 ℔ 100 lbs in jobbing lots.

APPLES—Receipts are liberal with the majority going forward to San Francisco. We quote market steady at ... ℔ box.

EGGS—The market is governed entirely by the daily receipts and consequently fluctuates from ... cts ℔ dozen.

FRESH MEATS—In consequence of the reported loss of Cattle in California and east of the Cascades, together with difficult travelling, prices have advanced. We quote Beef at ... on foot, ... dressed, 8@9½c; Sheep, $4 ...

To the Land Agent of the European and Oregon Land Company.

SIR: You are hereby notified that I have settled upon and improved (description of land) in the county of ... State of Oregon, containing ... acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation, in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully subscribe.

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvements, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

(Name of applicant.)

(Postoffice address.)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form:

PRE-EMPTION CERTIFICATE, NO. ——.

This is to certify that ... of ... county, State of Oregon, has this day filed in this office a pre-emption claim to (description of premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made without reference to improvements) when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party as the holder hereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person.

(Signed) Land Agent of the E. & O. Land Co.

The lands will be appraised by a competent, disinterested party, under oath, at their actual present value—no fancy or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual instalments, with interest from date of contract, at ten per cent per annum, principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patent issues, upon payment in full.

Blank forms of application furnished upon request.
